

ADAM MICKIEWICZ UNIVERSITY IN POZNAŃ
 Uniwersytet im. Adama Mickiewicza w Poznaniu
 POZNAŃ UNIVERSITY

The Purpose and Background of 2018 19th Poznan University WKF

Poznan, which is proud of the millennia history with the First and the Best, is among the oldest cities in Poland. It is famous for the First Cathedral which was built in 968, visited by John Paul II, is also known as the city nearby which Noble Prize Winner in Literature Wislawa Szymborska was born, and a center for culture and science in Poland and whole Europe. Poznan was the first capital of the Polish Kingdom before it was moved to Cracow and where first seven Polish kings are buried. This once Hanseatic city profits now as the relay foothold for Warsaw and Berlin connection. Westward location makes it a truly European city.

Newly rebuilt Baroque, Renaissance, Gothic architectures, and diverse reconstruction show the glorious history of Poznan after it was destroyed during World War I and World War II. In the early 19th century, Fredrick Chopin called “Poet of the Piano” had enjoyed the medieval beauty. Poznan features as a main stage, and artists from all over Europe and artists from all over Europe and beyond found an inspiration for their creative work here.

In World War II it was occupied by Nazis for 6 years, and have like the whole country have experienced Soviet-style communist rule. Poznan workers as the first in the postwar history rebelled against dictatorship

in 1956, and the city was one of the strongholds of Solidarity in its fight for liberation of the country.

The Korean Peninsula still being burdened the pain of division and continued the division with war crisis due to USA and Soviet Union's partitioned occupation and ideology confrontation which followed by the colonial rule under the imperialism era. Newly spread cold war in East Asia, exactly among the struggle for supremacy of USA & China, Europeans overcome the cold war between USA and Soviet Union under the co-exist and integration and finally achieved the European Union through their wisdom and patience, thus it has been learned to South-North Koreans and East Asians as deep empathy and instruction.

This European historical insight steers the Korean Peninsula which long suffered in a crossroad for war and peace and unstable North East Asia order into the new order to open the turning point for World Peace to reach the inter-Korean summit talks, US-North talks with resuming South-North Dialogue since Pyongchang Winter Olympic. In very crucial time, The Korean Peninsula Peace International Academic Forum will be held in Poznan as 2018 World Korea Forum and will flash up with keeping up expectation. 2018 19th World Korea Forum which programmed for KGF 20th anniversary, will be held in prestigious university "Poznan University (known as Adam Mickiewicz University)", which is established in 1919, the highest peak of European Human Science.

June 27 Wednesday, 2018

Conclusion		

■ Benefit of Expectation

2018 World Korean Forum will be the dialogue in pursuing of the paradigm for world and European viewed international support and cooperation in newly turning point which seeks for the Korean Peninsula Peace built and North East Asia Peace Coexistence International Leadership, which is motivated to resume South North Dialogue with peaceful solution to globally issued unstable Inter-Korean situation and furthermore it is anticipated that it will be an occasion to promote the desire for peaceful unification, develop the appropriateness and values in global timing.

This forum, which will be held by opinion leaders, scholars, experts and political leaders from more than 20, is a 20-year old global forum held by the Korean Global Foundation as an international academic organization for world peace. The WKF Europe Mission is a complete academic project for the establishment of the EU-Korea Peace Network as a public diplomacy for peaceful unification of the Korean peninsula on the continental European continent following the hosting of the Berlin Humboldt University in 2003, the Brussels EU Parliament in 2010 and London-Paris in 2015. Through this, International Society Peace Powers exchange cooperation will be revitalized as well as the transition of the global peace paradigm to Society at home and abroad.

It is anticipated that the published papers will be distributed to domestic and foreign related organizations as well as participants, contributing to the research policy data. Especially, it is expected that the participation of domestic and foreign media TV will spread the news of the peace on the Korean peninsula.
