Oficjalny list od Prezydenta i Sekretarza IUAES:

Dear organizers of the IUAES 2019 Inter-Congress:

We are writing you a letter of appreciation to express our gratitude for having organized the IUAES 2019 Inter-Congress in Poznan. Because of the very global character of the participants, organizing an IUAES Inter-Congress is truly complex.

You did a really excellent job, with attention to every single detail of the event, from the registration to the academic sessions, from the coffee and lunch breaks to the social events in the evening.

The work you did is even more impressive given the difficult political circumstances in which you had to pull everything together.

So, in name of our members, many of whom expressed to us how much they enjoyed IUAES 2019, we thank you profoundly for having organized a meeting that will have a lasting effect on the global community of anthropologists and, hopefully, also for anthropology/ethnology in Poland.

Yours sincerely,

Prof. Junji Koizumi
Former Trustee and Vice President, Professor Emeritus, Osaka University, Japan
IUAES President

Dr. Noel B. Salazar

Junji Koizumi, Prezydent IUAES

Dear Lukasz and Natalia,

(...) I just wanted to say thank you for all you have done for the IUAES Congress 2019. It was one of the most beautifully organized congresses I have ever attended. The program was made very well and everything was efficiently color coded. The opening was held in a magnificent building and the panels were held in a modern, beautiful and conveniently organized space. I could additionally enjoy a tour to Biskupin. This congress undoubtedly made our organization more active and stronger. Many thanks once again. I look forward to seeing you in forthcoming congresses.

All the best,
Junji

Prof. Dorothy K. Billings

Thank you for supporting the hosting of the 2019 Inter-Congress of the International Union of Anthropological and Ethnological Sciences in Poznan in August at Adam Mickiewicz University in Poznan. I cannot imagine how much work it must have been. I have been attending meetings of this organization since 1973, and I have never been to one that was a well-organized and that brought all of us together to discuss anthropological issues in contemporary contexts. World Solidarities made us look at our discipline in an important and complex context. I think your theme let us bring in important aspects of life on earth that we often ignore – like our relationship to all the creatures of creation. I think the great Malinowski would have been proud of our holistic approach!

I had not realized that Poland was presenting anthropology and ethnology in all of its sub-fields as the United States does. I really liked what I saw of your work in our discipline. And I really liked the food! Never has any institution taken such good care of its participants!

Prof. Alisse Waterston, IUAES 2019 Keynote speaker

Dear Natalia and Lukasz,
Thank you so very much for your dedication in putting together the most amazing conference in IUAES 2019. You did a stand-up job. I am honored to have been a part of it, and hope I did justice to the important topic of "Solidarity." You are both such generous people and I am grateful to know you. (...)

Prof. Hana Cervinkova, Head of the Department of Anthropology at Maynooth University, Ireland

Dear Professor Buchowski, Dear Organizers,

Please accept my congratulations on the extraordinary success of the IUAES 2019 Inter Congress in Poznan! It is rare to attend an event that is so perfectly managed in both content and organization. Everything – starting from the program and pre-congress communication to volunteers, facilities, registration and food – was on the highest possible levels. The professionalism and success with which this world gathering of anthropologists was organized stood, of course, in stark contrast to the institutional situation of anthropology as an academic discipline in Poland. Together with thousands of colleagues around the world, I am perplexed that the government of the home country of Bronislaw Malinowski cut short the long and productive ethnological and anthropological tradition of Poland, denying the discipline's right to existence. I am hopeful, however, that the current moment will be only a short episode in the rich history of Polish anthropology, which will continue to thrive domestically and internationally.

I look forward to our further collaboration.

Very sincerely,

Hana Cervinkova

Dr. Barbara Rylko-Bauer

Dear IUAES conference organizers,

I wanted to let you know how very pleased I was with the IUAES conference in Poznan. I was very impressed with how well everything was organized, I greatly appreciate the efforts that the organizing committee made to welcome attendees, to provide a boxed lunch, coffee, snacks, and transportation via the trams. The theme was especially important and relevant and I found several of the plenary sessions on this theme especially interesting. The program was rich, and covered many topics and areas of research. Finally, Poznan was a wonderful setting for this conference – It is a beautiful, historic city, full of life and great restaurants. I hope that the success of this conference will help to demonstrate to the government and the authorities that anthropology and ethnology are very important, relevant, and scientifically-grounded disciplines, with a long history and a global presence! And that Polish anthropology is recognized throughout the world.

Thank you and best wishes on this important 100 year anniversary of both the Adam Mickiewicz University and anthropology's role within this venerable institution.

In solidarity,

Serdeczne pozdrowienia,

Prof. Giovanna Guslini

I want to thank the organizing Committee of the IUAES inter-congress for the great work that made this event perfect and very significant for the international scientific community. It showed a vital research in socio-cultural anthropology in Poznan university and also advertised a wonderful town I had never known before.

I discovered a warm hospitality that cancelled the memories of my first journey to Poland in 1985. So much different now!

Congratulations for your hard work and for the facilities you gave us to discover your beautiful town. Thank you again!

Best wishes,

Dr. Ana Ivasiuc

Dear Natalia,

I just wanted to thank you for an amazing conference in Poznan and to congratulate you on the organization! It is so far the best organized conference that I have ever attended. Great amenities and space organization, amazing food and drinks, inspiring cultural programme, impeccable logistics!!! You and Lukas should be very proud of yourselves! (...)

See you at the next conference :)

All the best,

Dear Natalia,

Now that I am back in Chicago, I wanted to send you a quick message to tell you what a delight it was to get to meet you and work on orchestrating the panels together. Thank you so much for your wonderful hosting, and for all the work you did to make the conference such a success. I know that everyone was deeply impressed by and delighted with the conference!

(...) Thank you again for the wonderful conference – all your hard work really paid off! I hope you have had time to relax, sleep, and relish the fact that the conference was a great success!

Warmly,

Prof. Vesna Vucinic Neskovic

Dear colleagues and friends,

Thank you for organizing such a wonderful IUAES Congress!

The keynotes, plenaries and panels/roundtables were very interesting. The social events were charming and fun. You also created a friendly landscape in the lobby which became a true gathering place for the conference participants. Everyone present could see that a lot of thought and effort was put into this event, down to the minute details.

You can be proud of organizing such a successful IUAES Congress!
Thank you to all of you, as well as to the whole Organizing Committee.
Many regards from Vesna

Prof. Eugenia Ramirez-Goicoechea

Dear IUAES 2019 Organising Committee

I wish to congratulate you for such a successful Conference you have organised. As a participant with a paper presentation I experienced a very fruitful atmosphere because of the quality of the panel participants. The same can be said of the rest of the Conference in respect to its high intellectual and scientific level. Organisers, academics, students and volunteers of the Department of Ethnology and Cultural Anthropology of the Adam Mickiewicz University of Poznan should be praised for such a good job. Anthropology is a scientific discipline present in all European University studies and in most worldwide universities. Anthropology is essential in understanding the society, providing a holistic critical analysis in these times of globalisation, extremely fast change and political and social challenges. As a scientist and Professor of Social Anthropology I consider Anthropology an essential discipline that should be included in all national higher educational and scientific political institutions. Therefore, I very much support the claim of my Polish colleagues for the incorporation of Anthropology and Ethnology in the official list of scientific disciplines approved by the Polish Ministry of Science and Higher Education.

Best regards,

Dr. Zdeněk Uherek

Dear colleagues,

Allow me to congratulate you on a perfectly organized Intercongress of the IUAES. Several of our academicians and students, including me, attended it and were delighted with both the great organization and the quality of the contributions.

Thank you for increasing the prestige of social anthropology and strengthening its place among the humanities and social sciences.

Prof. Peter-Jazzy Ezeh

Dear colleagues,

I write to thank you for the warm hospitality that I enjoyed during the Inter-Congress of the International Union of the Anthropological and Ethnological Sciences that took place at the Adam Mickiewicz University in Poznan from 27-31 August. It was a memorable occasion both as an intellectual harvest of ideas and the symbolism of discussing anthropology in the country that gave the world the man who reshaped the discipline to its current form. It was the Pole, Bronislaw Malinowski, through his fieldwork among the Trobriand islanders that took anthropology to a new height. Hosting of this year's IUAES Inter-Congress in Poland should help to strengthen anthropology in that great country and worldwide. With all good wishes. Yours in the promotion of anthropological knowledge,

Dr. Graeme MacRae

Dear colleagues,

Thanks for a great conference – sorry I didn't have a chance to thank you personally but it was so well organised and so productive intellectually – as well as being thoroughly enjoyable.

I'd never been to Poland before and it's a long time since I've been in Europe at all, but I hope I can get back soon. It was, among other things, interesting to get some understanding of the challenges you are facing in Europe at present and the kind of critically engaged anthropology that so many of you are practicing to address these challenges. It is in times like this that the world needs anthropology most.

Best wishes for the future.

Prof. Martin Kanovsky

Dear friends,

I would like to express my gratitude for your effort and skill in organizing and managing such a huge event.

My colleagues teaching and investigating in the field of anthropology and/or ethnology at Adam Mickiewicz University, Poznań, but also at Universities in Krakow, Warsaw, etc. are outstanding scholars and their reputation even in international context is beyond any doubts. I think that it is not only shameful to not include Anthropology and Ethnology in the official list of scientific disciplines approved by the Polish Ministry of Science and Higher Education: it is a huge strategic mistake which could do a lot of damage for social sciences in Poland in general.

Professor Martin Kanovsky
Institute of Social Anthropology, Comenius University in Bratislava, Slovakia

Dr. Stephen Reyna

Dear Sir/Madame,

Anthropology is one of the most important of the social sciences. Poland since the time of Bronislaw Malinowski (1884-1942) has had a distinguished record in anthropology. The recent IUAES International Congress in Poznan was a triumph, a continuation of that tradition. Congratulations.

Dr. Meta Kordiš

Dear IUAES2019 Organizers,

Thank you very, very much for your input into the organization of this congress. It was great in all aspects. Fantastic program, people, volunteers, food, concerts. Well just everything. For the next organizers of IUAES inter-congress or congress it is going to be very hard to get close or even reach the level you have set.

I and KULA association give full support to ethnology and anthropology disciplines and departments in Poland and we stand with you in your fight!

Congratulations and many, many thanks.

Best wishes,

Prof. Shinya Konaka

Dear IUAES 2019 Inter-Congress Organising Committee,

The organisation of IUAES in Poznań was perfect and impeccable. Among the 4 congress and inter-congress of IUAES I participated (Manchester, Tokyo, and Ottawa), it was a best organisation ever. We have successfully organised and enjoyed our panel and enhanced academic exchange under the strong leadership of the anthropologists in Poland.

Anthropology is indispensable discipline that makes it possible to reconsider the future of human beings, covering all over the world, enlarging our scopes. I strongly recommend you to recognise anthropology in Poland as a vital discipline that is appreciated from international communities of anthropological sciences.

Best Regards,

Dear Prof. Michal Buchowski

Chair IUAES 2019 Inter-Congress

I would like to thank you and your collaborators as organisers of the IUAES congress that took place in Poznan (from 27th to 31st August 2019) for your warm hospitality and for the successful organisation of this conference which brought together anthropologists from all

over the world. The central theme of the conference, World Solidarities, which summarises the concerns and need of current societies, was debated from different perspectives in the round tables, keynote lectures and panels. The Congress was a complete success and shows once again the contributions of anthropology in analyzing different aspects of social life. I congratulate you on this achievement and I hope that the field of anthropology continues to go from strength to strength in this beautiful country.

Dr. Sumita Chaudhuri, Wiceprezydentka IUAES

Dear IUAES 2019 Inter-Congress Organising Committee,

Greetings from Kolkata, India. It is my great pleasure to say that the Inter-Congress in Poznan was a grand success. My observations as a participant are given below:

1. We received regular information regarding the programme and the progress of Inter-Congress.
2. The Inauguration programme was well planned and organised.
3. The free tram ride was very convenient for us.
4. The sessions were well organised.
5. Food, drinks and fruits provided to the participants were plenty.
6. The organizational-management part was excellent.
7. Above all the waste management was a learning process.

My heartiest congratulations to all the volunteers who worked effortlessly to make the Inter-Congress a success.

My warm thanks to Prof. M. Buchowski, Prof. L. Kaczmarek and my friend Natalia.

Best regards to you all!

Dr. Etsuko Kato

Dear Conference Organizers of IUAES 2019, Poznan

I thank you from the bottom of my heart for organizing that wonderful conference. It was one of the best international conferences of Anthropology and Ethnology I have ever

attended. The themes of whole conference, as well as of each session, was very deliberately prepared and inspiring. I was also impressed by the combination of participants of each session, which were organized with full care. Among all, the variety of the participants, which included people from North Europe and East Asia (like myself), made a rare opportunity for intellectual exchange of theoretical and field-based discussions of Anthropology and Ethnology.

The site of Poland/Poznan definitely had a strength as a center of academic communication in Anthropology and Ethnology, as well as a research field in these disciplines.

I greatly thank all the organizers, helpers and volunteers. I hope to come back to Poland for a similar opportunity.

Sincerely yours,

Etsuko Kato

Dr. Martijn Koster

Dear organizers of the IUAES conference,

This was one of the best conferences I ever attended. It was extremely well-organized. I know from experience how difficult it is to arrange and streamline everything, but you did a great job.

Apart from the excellent presentations and discussions, the food and snacks were also very good – this added up to the overall experience of a wonderful event.

Thanks again.

Best wishes, hartelijke groet,

Dr. Saroj Arora

Dear Sir/ Madam,

I congratulate Adam Mickiewicz University, Poznań for organizing a wonderful IUAES Inter Congress 2019. My special thanks to the volunteers who worked and helped to the participants relentlessly. It was a memorable experience meeting with so many scholars at one forum discussing on variant issues. I am highly impressed the way the programme was organised in a such systematic way. It was a great learning and exposure.

(...) I do not find any reason to keep the discipline of Ethnology and Anthropology out of the official list of scientific discipline. I strongly recommend to include the ethnology and anthropology in the official list of scientific discipline in the universities of Poland.

Václav Walach

The 2019 Inter-Congress was a spectacular event and its organizers deserve the highest appreciation. The congress showed that today anthropology and ethnology are more important than ever. The world is changing, but some things remain the same. Identifying continuities as well as disparities allows us to understand the social and cultural realities in a greater complexity, something which is often missing in the public debate and political field. The Polish anthropology and ethnology has a long and rich tradition. The participation of these scholars at the congress proved that they have an undeniable place in the global community. I believe that the Polish government would do all it can to support them in their endeavor.

Kind regards,

Prof. Alexandra Schwell

Drodzy wszyscy,

thanks for a great congress! It's been a perfectly organized event, particularly considering the size of the congress. There was always enough food and drinks, no technical issues, great discussions and last but not least a wonderful, helpful, and committed team.

It is a shame how Polish ethnology/anthropology is currently being treated by the governing party. I very much hope that your fight will be successful, keep up the good spirit!

Dear Polish colleagues,

Before anything else, many thanks for such a great congress in Poznan. It was very well organized. The academic level was very high and the opportunities for exchanging experiences and information was much appreciated. It also showed the relevance and leadership of Polish anthropology in the current world.

Congratulations to all of you especially to those directly involved in the event's organization.

Dear colleagues of the Department of Ethnology and Cultural Anthropology at Adam Mickiewicz University, Poznań,

I was really amazed by the high standards and the convivial atmosphere of the IUAES Inter-conference organized by your Department last August!

Thank you for organizing such a high quality academic event and creating a space of exchange among ethnologists and anthropologists from all over the world in such a successful way.

Social and Cultural Anthropology seem to have deep roots and great future in your University!

With all my gratitude,

Hello,

I had a great time at the 2019 IUAES Congress at Poznan University. It was so well organised, everything went smoothly. The admin team and volunteers were very helpful and welcoming. The food and snacks were great too! I loved how much everything was as environment-friendly as possible! Thank you for the free city tours and transport! I met very interesting scholars from all over the world and had so much to share with them. Panels were very interesting and insightful. The writing workshop was great too. Thank you so much for this wonderful experience!

Dear IUAES team,

Thank you for your kind love and support. I'm overwhelmed with the welcome by the IUAES team and hardworking volunteers who helped me in each and every phase whenever I needed it. It was a wonderful experience which is shared with worldwide anthropologists across countries. Thank you for giving me such a broad intellectual platform to share my research in front of renowned anthropologists. Their valuable suggestions and comments will definitely help me to improve my research. I thank each and every member of IUAES family (...)

Elena Valieva

Dear colleagues,

Just having visited the IUAES 2019 Congress in Poznan, I learned about the situation. Let me express my full support and solidarity with my colleagues from Poland!

In Russia, Anthropology (Ethnography) lost the status of an independent discipline in the first half of the twentieth century, becoming a part of History. This year, a similar rationalization has seriously reduced the teaching staff of our Department. I fully support the struggle for the autonomy for Anthropology!

Koleżanki i Koledzy!

Interkongres zgodnie uznany został za sukces. Organizacyjnie wszystko się spinało, wrażenie robiła segregacja odpadów, estetycznie podawane jedzenie, uśmiechnięci i kompetentni wolontariusze, stoisko z wodą, dostępność informacji, punktualność sesji....

I zaraz zapomnimy, że trzeba za dobre pomysły i ich skuteczną realizację podziękować Natalii i Łukaszowi. To była wielka, wspaniała i potrzebna nam wszystkim praca!

The organizing team was the best - you did such a great job! The free ride with the conference badges made me feel welcome in Poznan. And it made the travelling so easy, no worrying about tickets, travel zones etc. The food was delicious and I liked the recycling system. I loved the “continuous coffee breaks” – you set new standards here: whenever one needed water, tea or coffee, there was some, and of high quality, plus little special sweets when you needed them. The apples and the apple juice, the water ladies from aqua net. The places to

hang out, the place to sit down and do quite work, the chill zones. I could go on. Thanks so much for thinking it all so carefully through! And thanks to the great conference crowd!

Solidarność. Czy istnieje bardziej polskie słowo we wszystkich językach świata?

1000 wybitnych antropologów z 75 krajów słucha profesora Michała Buchowskiego, otwierającego Kongres Międzynarodowej Unii Nauk Antropologicznych i Etnologicznych IUAES 2019 Poznan. Wyjaśniając tytuł „World Solidarities” rozpoczął opowieść o jego źródle od 1956 roku i reakcji władzy na bunt robotników: zmanipulowanych procesach sądowych, kampanii propagandowych oszczerstw i konsekwentnemu skłócaniu społeczeństwa. W języku angielskim te opisy wybrzmiały bardzo współcześnie i nie ma wątpliwości, że taka też była intencja Profesora.

Pejzaż powstawania polskiej Solidarności uzupełnił Chris Hann, profesor Instytutu Maxa Plancka w Halle - on z kolei mieszkał w Polsce w gorących miesiącach jej karnawału w latach 1980/81. Tyle, że w maleńkim Wisłoku, gdzie idea „S”... nie zaistniała. Została wyparta.

Czym była, jest i będzie solidarność? I czy będzie cały czas językowym symbolem Polski? Fascynujący temat, zwłaszcza w interpretacji ludzi o takim dorobku i przenikliwości.
